

B-KEY

FACILITY MANAGEMENT SMART KEY SOLUTION

The B-KEY gives you **total visibility**, **secure control**, and **automatic access logging** — so you can know and control who accessed **what**, and **when**.

Better / Smarter Key System

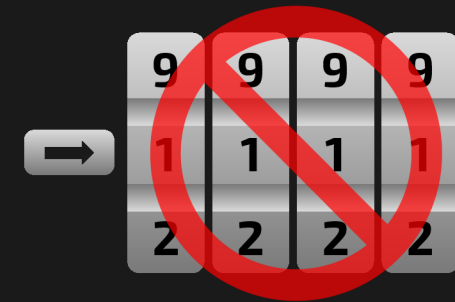

Retrofit your **existing keys** or get more **features with a new system**

- **Remotely** grant or revoke **access** in **seconds** — **no site** visit needed
- See **every** key movement **live**, from **anywhere**, including **photos**
- Monitor **real-time** status of all **safes** and **keys**
- **History** saved for complete **auditing** requirements
- Easily **export** data, for **audits** and **assessments**
- **Automate alerts** when keys are **overdue** — contractors and managers are **emailed instantly**

One Code for all Contractors?

A single code for all contractors means no **traceability**, no **restrictions**, no **accountability**. A shared PIN grants 24/7 access to whoever has it — with no logs and no accountability

Once the code is **shared**, your security is **gone**

Unique Code for all Contractors

B-KEY

Each contractor gets emailed a **unique PIN** — access is **secure**, **traceable**, and **automatically expires** With an Instant photo that is taken on interaction.

Smarter Key Control. Anywhere, Anytime.

Manage key **access**, enhance **security**,
Advanced **Audit** trail — all with one **system**

Remote management and **status**
monitoring

Unique time-limited **PINs** for
secure access.

Save **TIME** for you and your
Contractors

Always **know** where your keys are
with **photographic evidence**

Detailed **audit logs** - easily
exportable

Maximum Functionality. Minimal Cost.

B-KEY was built on two principles: **High functionality**, and **reduced cost**. Our goal is to deliver a **smarter, more capable** key-management system that **outperforms** traditional solutions — while **reducing** the cost.

Alerts & Snapshots

- Alerts for **missing** or **overdue** keys
- **Instant photos** for real-time awareness
- Notifications on **unauthorised access**

One Dashboard, Every Site

1 manager - **multiple sites**
Easily manage all keys from
anywhere @ anytime.

Phones, Tablets, Computers and more
